

e-STUDIO306cs

Datasheet

- > As a compact A4 colour system the e-STUDIO306cs is a true all-in-one multi-talent to cover all needs of your day-to-day business.
- > Impressive, high-quality document output at a speed of up to 30 pages per minute in colour as well as monochrome ensures a productivity level which leaves nothing to desire.
- > The maximum paper capacity of 1,450 sheets allow you to print or copy even large jobs with no hassle at all.
- > Meeting the increasing demand for responsible usage of resources the e-STUDIO306cs also complies with the strictest environmental standards.

The e-STUDIO306cs is ideal for small- to medium-sized businesses and workgroups which want print, scan, copy and fax functionality in one device. Its reliability and outstanding image quality ensure your documents make a lasting impression. The automatic named colour replacement allows you to store an optimised colour palette on the system, which will make the creation of perfect documents easier and faster.

A built-in HDD enhances the performance of this model significantly as it allows a wide range of applications to run directly on the system. Supported by the embedded solution framework, you will find implementing additional software is easier than ever.

As data security is becoming more and more important in today's business world, the e-STUDIO306cs can be equipped with optional card readers. These ensure that documents are only printed after the users authenticate themselves at the system, giving you full control over who has access to sensitive business data.
